

## Exam registration guide

1. Check the curriculum corresponding to your study programme to see which subjects are to be completed with an exam (marked with an 'E' in the curriculum). Please find your curriculum on the website: <http://lfze.hu/for-students/curriculum-116343>
2. Find the exams that need to be completed in the exam schedule. See which dates you would like to attend. If you decided which exams you want to go to, see point 3.
3. Register the exams in NEPTUN. Sign in with your login name and password, go to 'Exams', 'Exam registration'

4. A list of exams (or even one exam) will appear. Click the '+' sign at the end of the row, click register. If there are more dates for one subject, choose one date that is ideal for you. If you wish to change a date, click 'drop'. If you registered for an exam, you are obliged to participate.
